INFECTIOUS DISEASES OF SWINE

Prof P. N. Andreyev, Honored Worker of Sci
Moscow Zooveterinary Inst and
All-Union Inst of Experimental Veterinary

This book is the much revised and corrected third reprint of the original, which was published in 1928, and contains information on such diseases as dysentery, Teschen's disease, and listerellosis.

TABLE OF CONTENTS

	Page
Foreword	3
I. Problem of General Epizootiology and Problems of Controling Infectious Diseases of Swine in the USSR	5
Classification and Characteristics of Infectious Diseases in Swine	6
Problems of Controlling Infectious Diseases of Swine	8
II. Prophylaxis Against Infectious Diseases of Swine	20
Conditions Necessary for Rapid Control of Infectious Diseases	21
General Plan for Prophylactic Work at Pig Farms	22
Prophylactic Work at Small Pig Farms	27
